INDEPENDENT AUDITOR'S REPORT

To the Board of Trustees Mackay School District #182 Mackay, Idaho

We have audited the accompanying basic financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Mackay School District #182 as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the Mackay School District #182's basic financial statements as listed in the table of contents.

Management's Responsibility of the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted out audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not the purpose of expressing an opinion of the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, except for the effects of not implementing GASB #45 as discussed in the "Other Matters" paragraph, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governments activities, each major fund, and the aggregate remaining fund information of Mackay School District #182, as of June 30, 2018, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

To the Board of Trustees Mackay School District #182 Page 2

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, and schedules of pension related information on pages 26-31 be presented to supplement the basic financial statements, Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of the financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquires, the basic financial statements, and other knowledge we obtained during out audit of the basic financial statements, We do not express and opinion or provide any assurance of the information because the limited procedures do not provide us with sufficient evidence to express and opinion or provide any assurance.

Management has omitted the Management's Discussion and Analysis (MD&A) which is management's analysis of the District's financial activities based on currently known facts, decisions, or conditions, that accounting principles generally accepted in the United States of America requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise of Mackay School District #182's basic financial statements. The combining and individual nonmajor fund financial statements and the schedule of changes in student activity funds are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual nonmajor fund financial statements and the schedule of changes in student activity funds are the responsibility of management and were derived from and relate directly to the underlying account and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applies in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

As discussed in Note 16 to the financial statements, management of the District has not implemented the requirements of GASB Statement No. 45 and has not determined the District's annual other postemployment benefit (OPEB) obligation cost and net OPEB obligation. Accounting principles generally accepted in the United State of America require that such costs and obligations, which would increase the liabilities and change the expenditures in the Statement of Net Position and the Statement of Activities, respectively. The amount by which this departure would affect the liabilities and expenditures of the District's Government-wide Financial Statement is not reasonably determinable.

To the Board of Trustees Mackay School District #182 Page 3

Report on Other Legal and Regulatory Requirements

In accordance with Government Auditing Standards, we have also issued our report dated August 13, 2018 on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

MACKAY SCHOOL DISTRICT #182 RECONCILIATION OF THE GOVERNMENTAL FUNDS BALANCE SHEET TO THE STATEMENT OF NET POSITION June 30, 2018

Total fund balances - governmental funds	\$	2,850,592
The cost of capital assets (land, buildings, furniture, and equipment) purchased or constructed is reported as an expenditure in governmental funds. The Statement of Net Position includes those capital assets among the assets of the District as a whole. The cost of those capital assets is allocated over their estimated useful lives (as depreciation expense) to the various programs reported as governmental activities in the Statement of Activities. Because depreciation expense does not affect financial resources, it is not reported in government funds.		
Cost of capital assets \$ 7,572,094 Depreciation expense to date \$ (4,198,539)		3,373,555
Property taxes received that are not available to pay for current period expenditures are deferred in the funds.		11,219
Some expenses reported in the Statement of Activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Compensated absences - 2018		(684)
GASB 68 requires the accrual of net pension assets and liabilities and the deferred inflows and outflows of resources related thereto.		
Deferred outflows of resources Deferred inflows of resources Current change in net pension liability 332,46 (82,94 (111,97	6)	137,542

MACKAY SCHOOL DISTRICT #182 RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES For the Year Ended June 30, 2018

Net Change in Fund Balances - Total Governmental Funds		\$ 364,654
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlays as expenditures. However,		
in the statement of activities, the cost of those assets is allocated over		
their estimated useful lives as depreciation expense. This is excess of capital outlays over (under) depreciation expense in the current period.		
Capitalized assets Depreciation expense	204,041 (210,749)	(6,708)
Property tax revenues are deferred and not recognized in the funds until they are available to pay for current period expenditures. In the statement of activities, however, they are recognized when levied. This is the difference between the amount deferred at the beginning and end of the current period.		
Deferred revenue - 2018	11,219	
Deferred revenue - 2017	(11,136)	83
Change in long-term liabilities are not due and payable in the current period and therefore are not reported in the funds.		(684)
GASB 68 requires the calculation of net pension revenue/(expense), and the deferral of current contributions		
Current contributions (measurement deferral)	122,992	
Net pension income (expense)	25,022	 148,014

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of Mackay School District #182 have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to school districts. The significant accounting policies of the District are described below.

A. Reporting Entity

Mackay School District #182 provides public school educational services as authorized by Section 33 of the Idaho Code. The District's boundaries for taxing and school enrollment purposes are located within Butte and Custer Counties.

Factors used in defining the reporting entity are as follows: Mackay School District #182 was established under the laws of the State of Idaho which designates the Board of Trustees as the governing authority. Members of the Board of Trustees are elected by the public. The Board of Trustees has control over the superintendent and management, and also has the authority to purchase equipment and other capital assets, and to levy taxes. The Board of Trustees has the power to establish annual budgets subject to public input from patrons, is responsible for funding deficits and operating deficiencies, and has the authority to borrow funds or issue bonded indebtedness.

The conclusion formed based on the above criteria is that Mackay School District #182 is an independent school district in the State of Idaho, operating under an autonomous Board of Trustees constituting a Local Educational Agency form of government.

In the evaluation of how to define the District for the financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made using criteria set forth in the accounting principles generally accepted in the United States of America. All funds and activities of Mackay School District #182 are included in the basic financial statements. Using the above criteria, the District has no component units.

B. Basis of Presentation, Basis of Accounting

Basis of Presentation

Government-wide Statements: The statement of net position and the statement of activities display information about the school district. These statements include the financial activities of the overall government, except fiduciary activities. Eliminations have been made to minimize the double-counting of internal balances and transfers. These statements distinguish between the governmental and business-type activities of the District. Governmental activities are generally financed through taxes, intergovernmental revenues, and other non-exchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties. All of the districts activities are classified as governmental activities. No fiduciary funds are included in the government-wide statements.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

B. Basis of Presentation, Basis of Accounting, continued

Basis of Presentation, continued

Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Programs revenues include (a) fees, fines, and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the District's funds, including its fiduciary funds. Separate statements for each fund category—governmental and fiduciary—are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

The District reports expenditures in accordance with the State Department of Education's "Idaho Financial Accounting Reporting Management System" (IFARMS). IFARMS categorizes all expenditures by function, program, and object. Accordingly, there is no allocation of indirect costs.

The district reports the following major governmental funds:

General Fund

The General Fund is the general operating fund of the School District. It is used to account for all financial resources except those required to be accounted for in another fund. Thus, it is always considered a major governmental fund.

Food Service Fund

The Food Service Fund accounts for all revenues and expenditures related to child nutrition within the district.

Plant Facilities Fund

The Plant Facilities Fund accounts for capital acquisitions and improvements to the School District. It is always considered a major governmental fund.

Federal Forest Fund

The Federal Forest Fund accounts for all federal forest revenues and any expenditures made out of this fund.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

B. Basis of Presentation, Basis of Accounting, continued

Basis of Presentation, continued

School Maintenance Fund

The School Maintenance Fund accounts for all state assistance and expenditures related to the building and maintaining of school properties.

The District reports the following fund types:

Agency Funds

These funds account for the monies held on behalf of student groups and organizations.

Measurement Focus, Basis of Accounting

Government-wide and Fiduciary Fund Financial Statements. The government-wide and fiduciary fund financial statements are reported using the economic resources management focus. The government-wide fund financial statements are reported using the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded at the time liabilities are incurred, regardless of when the related cash flows take place. Nonexchange transactions, in which the District gives (or receives) value without receiving (or giving) equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations are recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. The District considers all revenues reported in the governmental funds to be available if the revenues are collected within sixty days after year end. Property taxes, sales tax, franchise taxes, licenses, and interest are considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long term debt and acquisitions under capital leases are reported as other financing sources.

Under the terms of grant agreements, the District funds certain programs by a combination of specific cost-reimbursement grants and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net assets available to finance the program. It is the District's policy to first apply cost reimbursement grant resources to such programs, followed by general revenues.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

B. Basis of Presentation, Basis of Accounting, continued

Measurement Focus, Basis of Accounting, continued

The District reports deferred revenue on its governmental funds balance sheet. Deferred revenues arise when potential revenue does not meet both the "measurable" and "available" criteria for recognition in the current period. In subsequent periods, when both revenue recognition criteria are met, the revenue is recognized. Additionally, for both government-wide and fund financial statements, certain grant revenues are only recognized to the extent they have been used for qualifying expenditures; any excess revenues are thus reported as deferred revenue.

All governmental, business-type, and enterprise funds of the Mackay School District #182 follow FASB Statements and Interpretations issued on or after November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

The District does not maintain an encumbrance system, but exercises control, in lieu of encumbrance, through the administration of the budget process.

C. Cash and Investments

The District pools cash of all governmental fund types into a common bank account. The accounting records of each fund reflect the equity in pooled cash. The District considers cash and cash equivalents to be all checking and savings accounts held in their name.

D. <u>Property Taxes</u>

In accordance with Idaho law, ad valorem property taxes are levied in September for each calendar year. Levies are made on or before the 2nd Monday of September. One-half of the property taxes are due on or before the 20th of December. The remaining one-half is due on or before June 20th of the following year. A lien is filed on real property three years from the date of delinquency. Butte and Custer Counties bill and collect property taxes for the District.

E. Inventories

The District normally has unused janitorial and food service supplies including food stock on hand at year end. The remaining janitorial supplies, food service supplies, and food stock are deemed immaterial in dollar amount and therefore are not valued or accounted for in the financial statements.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

F. Capital Assets and Depreciation

Capital assets purchased or acquired with an original cost of \$3,000 or more are reported at historical cost or estimated historical cost. Contributed assets are reported at fair market value as of the date received. Additions, improvements and other capital outlays that significantly extend the useful life of an asset are capitalized. Other costs incurred for repairs and maintenance are expensed as incurred. Mackay School District # 182 is a Phase III government meaning that they are not required to report infrastructure. Depreciation on all assets (exclusive of land) is provided on the straight-line (SL) method over the following estimated useful lives:

Computer equipment (SL method) 5 years Equipment, furniture and fixtures (SL method) 10-20 years Buildings (SL method) 50-99 years

G. Net Position

Net position is the difference between assets and liabilities. Net assets invested in capital assets, net of related debt, are capital assets, less accumulated depreciation and any outstanding debt related to the acquisition and construction of improvements of those assets. Net assets are reported as restricted when there are legal limitations that are imposed on their use by the District, or external restrictions by other governments, creditors, grantors or enabling legislation. In Mackay School District there are restrictions of \$614,891 in the capital projects fund and \$1,404,071 in the Other Special Program funds. When expenses are incurred for purposes for which both restricted and unrestricted net assets are available, restricted resources are applied first.

H. Fund Balance Reserves

The five categories of fund balance are nonspendable, restricted, committed, assigned, and unassigned. For the year ended June 30, 2018, the District had fund balances which were restricted and unassigned of \$2,012,400 and \$824,818 respectively. Restricted funds are those which are constrained to being used for a specific purpose by external parties, constitutional provisions, or enabling legislation. Unassigned funds are those which are available for any purpose.

I. Teachers Contracts

Contracts for teachers' salaries are payable in twelve monthly installments beginning in September. At June 30, the liability for the remaining two months of the current contracts and associated contracted benefits is accrued.

J. Nonmonetary Transactions

Items received via federal Food Commodities Program are recognized at their stated fair market value of \$6,822.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES, Continued

K. Risk Management

The district is exposed to a considerable number of risks of loss including but not limited to a) damage to and loss of property and contents, b) employee torts, c) professional liabilities, i.e. errors and omissions, d) environmental damage, e) workers compensation, i.e. employee injuries and f) medical insurance costs of its employees. Commercial insurance policies transferring the risk of loss, but for a relatively small deductible amount, are purchased for property and content damage, employee's torts and professional liabilities. Settlement claims resulting from these risks have not exceeded the insurance deductible provided for in the last three years.

L. Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the District to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

M. Pensions

For purposes of measuring the net pension liability and pension expense, information about the fiduciary net position of the Public Employee Retirement System of Idaho Base Plan (Base Plan) and additions to/deductions from Base Plan's fiduciary net position have been determined on the same basis as they are reported by the Base Plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

NOTE 2 CASH AND INVESTMENTS

Cash and investments for all funds consist of the following at year end:

	Bank	Book	FDIC/NCUA	
Financial Institution	Balance	Balance	<u>Insured</u>	<u>Uninsured</u>
Ireland Bank				
Checking	\$151,752	\$ 31,325	\$ -	\$ 151,752

Petty Cash		250		250
Grand Total	<u>\$ 3,097,850</u>	<u>\$ 2,963,962</u>	<u>\$ 750,000</u>	\$ 2,348,109

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 2 CASH AND INVESTMENTS, continued

Custodial credit risk is the risk that, in the event of a bank failure, the district's deposits may not be returned to it. The district does not have a deposit policy for custodial credit risk. As of June 30, 2018, \$2,348,109 of the district's bank balance of \$3,097,850 was exposed to custodial credit risk.

Investments

Idaho statutes authorize school districts to invest in obligations of the United States Treasury, agencies and instrumentalities of the United States, repurchase agreements, interest-bearing bonds of any city, county, school district or municipality in Idaho, tax anticipation notes, time deposit accounts in state depositories, accounts in financial institutions, and the State of Idaho's Local Government Investment Pool. The District's investment policy complies with state statutes.

The Local Government Investment Pool is managed by the State of Idaho Treasurer's office. The funds of the pool are invested in certificates of deposit, repurchase agreements, and U. S. government securities. The certificates of deposits are federally insured. The U. S. government securities and the collateral for the repurchase agreement are held in trust by a safekeeping bank. Interest income earned on pooled investments is allocated to the various funds of the District in proportion to each fund's respective investment balances. At June 30, 2018, the District did not hold any funds at the Local Government Investment Pool.

Statement 40 of the Government Accounting Standards Board requires government entities to disclose the level of credit risk, concentration of credit risk, interest rate risk, and foreign currency risk assumed on deposit and investment balances. All of the District's deposits were held in checking and savings accounts at banking institutions. They had no investments which require disclosure under GASB No. 40.

NOTE 3 RECEIVABLES

Receivables at year end consist of the following:

Local Courses		General Fund		Special Revenue Fund		Plant <u>Facilities</u> Fur	
Local Sources Local Taxes		\$	21,212			\$	30,635
State Sources Foundation Program Special Programs	Total State	\$	46,668 6,374	\$	56,521 56,521		
	Total State	<u>\$</u>	<u>53,042</u>	<u>\$</u>	<u>56,521</u>		

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 4 INTERFUND TRANSACTIONS

Interfund Receivables/Payables

There were the following interfund receivable and payable balances at the fiscal year end:

Major Funds	Interfund Receivables	Interfund Payables
General Fund	6,166	
Non Major Funds		6,166

The interfund receivables and payables are the result of individual fund cash overdrafts.

Interfund Transfers

The District has the following interfund operating transfers at June 30, 2018:

	<u>Transfe</u>	rs In	Transf	<u>fers Out</u>
Funds:				
General Fund	\$	-	\$	39,512
Plant Facilities Fund	3	9,512		· -
Total	\$ 3	9,512	\$	39,512

NOTE 5 CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2018 is as follows:

		llance -1-17	Pri Per Adjusi	iod	Capital ruisitions	•	ales & Other positions		llance -30-18
Non-depreciable Assets Land			\$

Secondary	63,693
Plant Services	15,924
Transportation	15,924
School Administration	51,515
Total	<u>\$210,749</u>

NOTE 6 PENSION PLAN

Plan Description

The Mackay School District contributes to the Base Plan which is a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions. The cost to administer the plan is financed through the contributions and investment earnings of the plan. PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

Responsibility for administration of the Base Plan is assigned to the Board comprised of five members appointed by the Governor and confirmed by the Idaho Senate. State law requires that two members of the Board be active Base Plan members with at least ten years of service and three members who are Idaho citizens not members of the Base Plan except by reason of having served on the Board.

Employee membership data related to the PERSI Base Plan, as of June 30, 2017 was as follows:

Retirees and beneficiaries currently receiving benefits	45,468
Terminated employees entitled to but not yet receiving benefits	12,669
Active plan members	70,073
TOTAL	128,210

Pension Benefits

The Base Plan provides retirement, disability, death and survivor benefits of eligible members or beneficiaries. Benefits are based on members' years of service, age, and highest average salary. Members become fully vested in their retirement benefits with five years of credited service (5 months for elected or appointed officials). Members are eligible for retirement benefits upon attainment of the ages specified for their employment classification. The annual service retirement allowance for each month of credited service is 2.0% (2.3% for police/firefighters) of the average monthly salary for the highest consecutive 42 months.

The benefit payments for the Base Plan are calculated using a benefit formula adopted by the Idaho Legislature. The Base Plan is required to provide a 1% minimum cost of living increase per year provided the Consumer Price Index increases 1% or more. The PERSI Board has the authority to provide higher cost of living increases to a maximum of the Consumer Price Index movement or 6%, whichever is less; however, any amount above the 1% minimum is subject to review by the Idaho Legislature.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 6 PENSION PLAN (continued)

Member and Employer Contributions

Member and employer contributions paid to the Base Plan are set by statute and are established as a percent of covered compensation and earnings from investments. Contribution rates are determined by the PERSI Board within limitations, as defined by state law. The Board may make periodic changes to employer and employee contribution rates (expressed as percentages of annual covered payroll) that are adequate to accumulate sufficient assets to pay benefits when due.

The contribution rates for employees are set by statute at 60% (72%) of the employer rate. As of June 30, 2017 it was 6.79% (8.36%). The employer contribution rate as a percent of covered payroll is set by the Retirement Board and was 11.32% (11.66%). The Mackay School District's contributions were \$123,603 for the year ended June 30, 2018.

Pension Liabilities, Pension Expense (Revenue), and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2018, the Mackay School District reported a liability for its proportionate share of the net pension liability. The net pension liability was measured as of July 1, 2017, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Mackay School District's proportion of the net pension liability was based on the District's share of contributions in the Base Plan pension plan relative to the total contributions of all participating PERSI Base Plan employers. At July 1, 2017, the District's proportion was .0351789%.

For the year ended June 30, 2018, the Mackay School District recognized pension revenue of \$25,022. At June 30, 2018, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

		Deferred Outflows of Resources		Deferred Inflows of Resources	
Differences between expected and actual experience	\$	76,601	\$	49,816	
Changes in assumptions or other inputs		10,226		-	
Net difference between projected and actual earnings	3	-			
on pension plan investments		_		33,130	
Changes in the employer's proportion and difference	s			,	
between the employer's contributions and					
the employer's proportionate contributions		-		-	
Contributions subsequent to the measurement date		122,992		_	
TOTAL	\$	209,819	\$	82,946	

\$122,992 reported as deferred outflows of resources related to pensions resulting from Mackay School District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2019.

The average of the expected remaining service lives of all employees that are provided with pensions through the System (active and inactive employees) determined at July 1, 2016 the beginning of the measurement period ended June 30, 2017 is 4.9 years.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 6 PENSION PLAN (continued)

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense (revenue) as follows:

Year ended June 30, 2017:

2018	\$(30,060)
2019	\$ 51,950
2020	\$ 14,741
2021	\$ (32,749)

Actuarial Assumptions

Valuations are based on actuarial assumptions, the benefit formulas, and employee groups. Level percentages of payroll normal costs are determined using the Entry Age Normal Cost Method. Under the Entry Age Normal Cost Method, the actuarial present value of the projected benefits of each individual included in the actuarial valuation is allocated as a level percentage of each year's earnings of the individual between entry age and assumed exit age. The Base Plan amortizes any unfunded actuarial accrued liability based on a level percentage of payroll. The maximum amortization period for the Base Plan permitted under Section 59-1322, Idaho Code, is 25 years.

The total pension liability in the June 30, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.25%
Salary Increases	4.25 - 10.00%
Salary inflation	3.75%
Investment rate of return	7.10%, net of investment expenses
Cost-of-living adjustments	1%

Mortality rates were based on the RP - 2000 combined table for healthy males or females as appropriate with the following offsets:

- Set back 3 years for teachers
- No offset for male fire and police
- · Forward one year for female fire and police
- Set back one year for all general employees and all beneficiaries

An experience study was performed for the period July 1, 2007 through June 30, 2013 which reviewed all economic and demographic assumptions other than mortality. Mortality and all economic assumptions were studied in 2014 for the period from July 1, 2009 through June 30, 2013. The Total Pension Liability as of June 30, 2017 is based on the results of an actuarial valuation date of July 1, 2017.

The long-term expected rate of return on pension plan investments was determined using the building block approach and a forward-looking model in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 6 PENSION PLAN (continued)

Even though history provides a valuable perspective for setting the investment return assumption, the System relies primarily on an approach which builds upon the latest capital market assumptions. Specifically, the System uses consultants, investment managers and trustees to develop capital market assumptions in analyzing the System's asset allocation. The assumptions and the System's formal policy for asset allocation are shown below. The formal asset allocation policy is somewhat more conservative than the current allocation of System's assets.

The best-estimate range for the long-term expected rate of return is determined by adding expected inflation to expected long-term real returns and reflecting expected volatility and correlation. The capital market assumptions are as of January 1, 2017.

Asset Class	Expected Return	Expected Risk	Strategic Normal	Strategic Ranges
Equities	Retuin	KISK	70%	66%-77%
Broad Domestic Equity	9.15%	19.00%	55%	50%-65%
International	9.25%	20.20%	15%	10%-20%
Fixed Income	3.05%	3.75%	30%	23%-33%
Cash	2.25%	0.90%	0%	0% - 5%
			Expected	
	Expected	Expected	Real	Expected
Total Fund	Return	Inflation	Return	Risk
Actuary	7.00%	3.25%	3.75%	N/A
Portfolio	6.58%	2.25%	4.33%	12.67%
* Expected arithmetic ret	urn net of fees a	and expenses		•
Actuarial Assumptions:				
Assumed Inflation – Mea	n			3.25%
Assumed Inflation – Stan	dard Deviation			2.00%
Portfolio Arithmetic Mea	n Return			8.42%
Portfolio Long-Term Exp	ected Geometri	ic Rate of Return		7.50%
Assumed Investment Exp				0.40%

Discount Rate

The discount rate used to measure the total pension liability was 7.10%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate. Based on these assumptions, the pension plans' net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term expected rate of return was determined net of pension plan investment expense but without reduction for pension plan administrative expense.

7.10%

Long-Term Expected Rate of Return, net of Investment Expenses

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 6 PENSION PLAN (continued)

Sensitivity of the District's proportionate share of the net pension liability to changes in the discount rate.

The following presents Mackay School District's proportionate share of the net pension liability calculated using the discount rate of 7.10 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.10 percent) or 1-percentage-point higher (8.10 percent) than the current rate:

	Current		
	1% Decrease (6.10%)	Discount Rate (7.10%)	1% Increase (8.10%)
Proportionate share of the net pension liability (asset)	1,285,174	552,952	(55,544)
[1,200,171	332,732	(22,244)

Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERSI financial report.

PERSI issues a publicly available financial report that includes financial statements and the required supplementary information for PERSI. That report may be obtained on the PERSI website at www.persi.idaho.gov.

NOTE 7 COMPENSATED ABSENCES

The District provides personal and sick leave to its employees, as well as paid vacations depending on job classifications, lengths of service, and other factors. The estimated amount of compensation for future amounts totaled \$684 and has been recorded as a liability in the Statement of Net Position.

NOTE 8 DEFERRED REVENUES – FUND FINANCIAL STATEMENTS

Revenues are recognized when they become available to the District. Taxes and other receivables not received soon enough after year end to pay current liabilities do not represent available expendable resources and recognition of revenue is deferred until collection. Deferred revenues at year end consist of the following:

Property taxes – General Fund Property taxes – Plant Facilities	\$	4,657 6,562
Total Deferred Revenue	<u>\$</u>	11,219

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

NOTE 9 CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and adjustment. The amount, if any of expenditures which may be disallowed by the grantor cannot be determined at this time although the District expects such amount, if any, to be immaterial.

NOTE 10 SUBSEQUENT EVENTS

Subsequent events were reviewed through the date of the report, August 13, 2018. As of the date of the report there are no known subsequent events that will have a material effect on the operation of the District.

NOTE 11 RELATED PARTY TRANSACTIONS

The District has not been involved in any related party transactions that would violate the Idaho Code or applicable federal regulations.

NOTE 12 LEASE—PURCHASE COMMITMENTS

The District has not entered into any lease-purchase commitments.

NOTE 13 DEFICIT FUND BALANCES

The District has the following negative fund balances:

Drivers Education	\$ 997
Professional Technical-State	248
Title I-A Basic Programs	6,939
Title VI-B IDEA School-Age	1,336
Title VI-B IDEA Pre-School	457
Title VI-A Student Support	193
Title IV-A Safe & Drug Free School	60

NOTE 14 ECONOMIC DEPENDENCY

The District is economically dependent on the State of Idaho from which it receives approximately 80% of its revenues.

NOTE 15 POST RETIREMENT BENEFITS

Mackay School District #182 funds post-retirement benefits through PERSI. During the school year ended June 30, 2018, the district paid 1.16% of the wages covered by PERSI to the State of Idaho. Upon retirement, one-half of the employee's accumulated sick leave is transferred from the sick leave pool established by PERSI to the individual employee's retirement account. These funds are used to pay post-retirement health insurance premiums.

Notes to the Basic Financial Statements For the Year Ended June 30, 2018

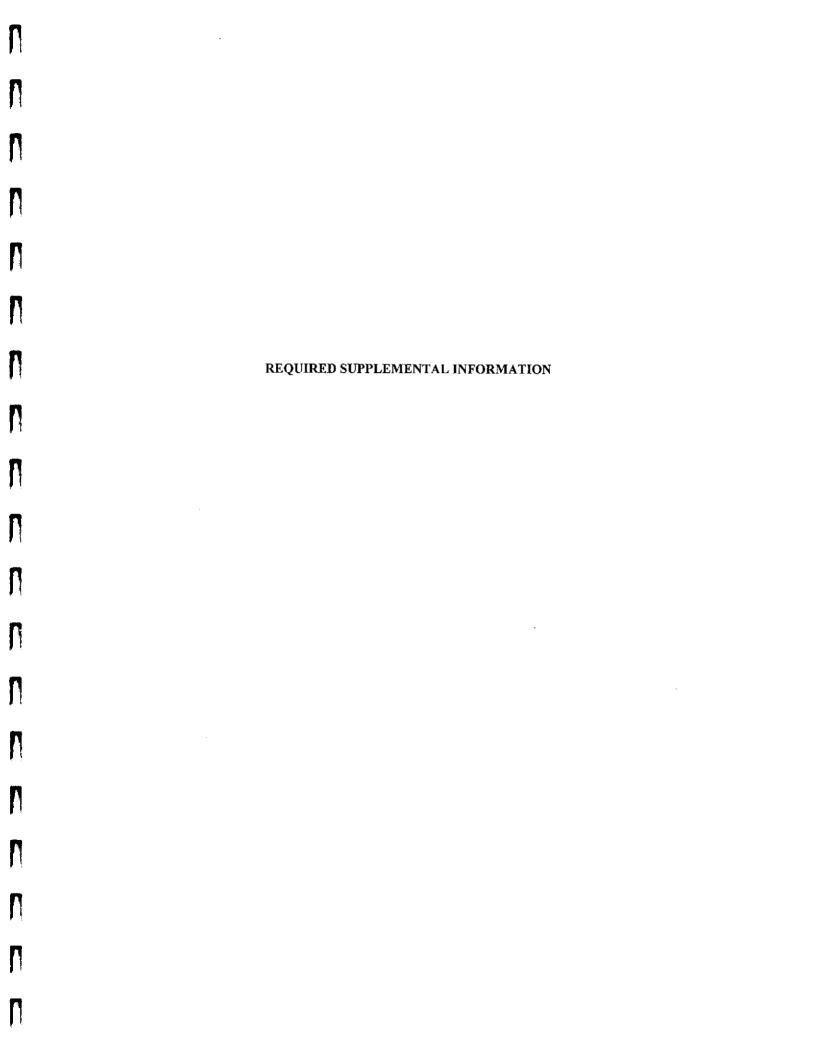

NOTE 16 RETIREMENT HEALTHCARE PLAN

GASB Statement 45, is an accounting and financial reporting requirement for employers to measure and report the cost and liabilities associated with other (than pension) postemployment benefits (OPEB).

Mackay School District #182's Employee Group Benefits Plan is a single-employer defined benefit healthcare plan administered by Blue Cross of Idaho. Blue Cross provides medical, prescription drug insurance and dental benefits to eligible retirees and their eligible dependents.

A retiree who retires with the Public Employee Retirements System of Idaho (PERSI) is eligible to keep the District's health insurance as a retiree until age 65, or until the retiree is eligible for coverage under Medicare. Retirement eligibility is determined based on a minimum of reaching age 55 with at least five years of membership with a PERSI employer. The retiree is on the same medical plan as the District's active employees. The District's required contribution is based on projected pay-as-you-go financing requirements.

The District has not implemented the requirements of GASB Statement 45 and as a result has not determined in annual OPEB cost and net OPEB obligation. The District's plan is considered to be unfunded since there are no assets and retiree benefits are paid annually on a cash basis.

MACKAY SCHOOL DISTRICT #182 SCHEDULE OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES BUDGET AND ACTUAL - GENERAL FUND For Year Ended June 30, 2018

Notes to the Required Supplemental Information For the Year Ended June 30, 2018

NOTE 1 BUDGETS

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated budgets are adopted for all governmental funds types.

NOTE 2 LEGAL COMPLIANCE – BUDGETS

The District follows these procedures in establishing the budgetary data reflected in the financial statements.

- 1. The District annually prepares a budget by estimating the probable amount of money necessary for all purposes for which an appropriation is to be made (including interest and principal due on the bonded debt) and by itemizing and classifying the proposed expenditures as nearly as may be practicable. To support such proposed expenditures, the District prepares an estimate of the total revenue anticipated during the ensuring fiscal year for which a budget is being prepared and classifies such receipts by source as nearly as may be possible and practicable.
- 2. The proposed budget is published.
- 3. A public hearing is conducted to obtain citizen comments.
- 4. The budget is formally adopted through approval by the board of trustees.
- 5. The District may, after school starts and actual enrollment figures are known, amend the budget using the same procedures which were used in adopting the original budget. A budget may be amended downward in any instance. However, amendment to a greater amount than adopted can only happen if the District receives additional revenues in that fiscal year as a result of an increase in non-property tax related receipts. Once the change is justified, the process for formal adoption is as described above.
- 6. Budgetary integration is employed as a management control device during the year for all funds. Legal budgetary control is established based upon total revenues and expenditures.
- 7. The level of control (level at which expenditures may not exceed budget) is the fund.
- 8. All annual appropriations lapse at fiscal year end.

Notes to the Required Supplemental Information For the Year Ended June 30, 2018

NOTE 3 PENSION

The Mackay School District contributes to a cost-sharing multiple-employer defined benefit pension plan administered by Public Employee Retirement System of Idaho (PERSI or System) that covers substantially all employees of the State of Idaho, its agencies and various participating political subdivisions.

During the fiscal year ended June 30, 2018, there were no changes of benefit terms, neither was there any significant change in the composition of the population covered by the benefit terms. All assumptions used in actuarial calculations were not significantly different from those used in the past.

INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

Board of Trustees Mackay School District #182 Mackay, ID 83251

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governments Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major funds, and the aggregate remaining fund information of Mackay School District #182, as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise Mackay School District #182's basic financial statements and have issued our report thereon dated August 13, 2018.

Internal Control over Financial Reporting

In planning and performing our audit, we considered Mackay School District #182's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Mackay School District #182's internal control. Accordingly, we do not express an opinion on the effectiveness of Mackay School District #182's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify and deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified

To the Board of Trustees Mackay School District #182 Page 2

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Mackay School District #182's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government*. Auditing Standards.

Purpose of this Report

The Purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide and opinion of the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Schedule of Prior Findings June 30, 2018

FINDINGS—FINANCIAL STATEMENT AUDIT

A. SIGNIFICANT DEFICIENCIES

2017-01

Condition:

Cash reconciliations are not formally reviewed.

Cause:

The business manager at times receives mail, prepares deposits, makes deposits, and reconciles the cash accounts. The cash reconciliations are not reviewed by any other employee of the District.

Effect:

The overlap of cash duties presents an increased risk of fraud, and cash reconciliation reviews are essential to detect and correct fraud or material misstatement in the financial statements.

Recommendation:

We recommend the District require the preparer of the reconciliations to sign and date them, and that the Superintendent, or the District Clerk/Treasurer review reconciliations for questionable items and also sign and date them.

Response:

The District will review procedures with the new superintendent and focus on making improvements.

Status:

Corrected in Current fiscal year audited
